

The page features several thin, curved lines in a light brown color that sweep across the top and left sides, creating a sense of movement and design.

NEW ZEALAND INSULATORS

TEMUKA

> 2014 LV POCKET BOOK

December 2013

NZI re-entered the LV market in October 2012 and we have expanded the range since then. We can now provide you with this 2014 LV Pocket Book, which is representative of the Low Voltage product range we are offering to New Zealand Wholesalers.

Our range covers all the usual things – NZI lamp holders, connectors, DMC standoffs, busbar supports, reels, fuse holders and fuse carriers, safety bases – all available direct from NZI – and all made by us in Temuka.

Experienced industry players know that NZI products last and last.

Of particular importance to us are the NZI branded products, which are the products we make in Temuka, South Canterbury. We all know about imported products which have flooded this market, but with your support we can retain manufacturing in New Zealand, and keep New Zealanders employed. So why not support the NZI brand and the quality products we stand for.

We also offer Wholesalers an extensive range of genuine Cooper Bussmann (from Bussmann by EATON) fuses, fuse holders and switch disconnects. As well as, Fulton Industries earthing products and Avon products all ex stock.

The NZI warehouses in Temuka (South Canterbury) and Kumeu (West Auckland) supply the range of LV products for dispatch on an overnight basis, providing your order is in by 3pm. The minimum value of LV orders to qualify for freight-free NZ-wide is \$300 + GST (see Freight Rate Card on www.nzinsulators.co.nz).

Please deal directly through our Temuka Customer Services on 03-6878100, fax 03-6158125 or email sales@nzinsulators.co.nz

We appreciate you supporting a New Zealand business standing for quality products.

Chris van der Werff

General Manager

New Zealand Insulators Limited

Why pay a small premium for NZI Temuka-made product?

1. **Our product lasts** – please assess the cost across our product's entire lifetime.
2. **Trusted porcelain** – NZI's Kakahu blend, from our own mine in South Canterbury, proven & trusted.
3. **Durability** – our porcelain is lighter, stronger and can take the knocks.
4. **Tested** – our products are tested at 7 stages throughout manufacture, we weed out every reject.
5. **QA System** – we manufacture to an ISO9001 certified quality system.
6. **Use it or lose it** – future proof your choices, and retain our local manufacturing capability.
7. **Safe haven** – imports are cheap today, but things tend to go in cycles.
8. **Compliance** – NZI complies with our local standards, as well as environmental, safety, employment & intellectual property regulations.
9. **Actually made here** – because many of your clients will prefer, and attach value to, NZ-made products.
10. **Specify NZ made product** – keep the resources, the infrastructure, the skills, the pride, the money, the people and the precious employment right here. Handing these things offshore to someone else is madness (opinion).

Timing

This catalogue was released on 16/12/13 and all product changes are effective from that date.

Freight & Order Size

There is no minimum order. All orders exceeding NZ\$1,000 excl GST are freight-free New Zealand wide. Orders under \$1,000 are warmly welcomed, but we ask for a freight cost contribution, as per the most recent NZI Freight Rate Card – which is posted & updated on the home page of nzinsulators.co.nz. We do ask that whenever possible, orders be made in full-box multiples.

Wholesalers

Wholesalers can buy direct from NZI at Trade Price less a discount.

The 2014 LV Pocket Book lists Trade Prices as they stood at 11/11/13.

The freight-free threshold for Wholesalers (buying off Trade Price) is NZ\$300 excl GST. Wholesalers who also operate a Network Store need two NZI accounts.

Terms of Trade

Transactions with New Zealand Insulators are made under overarching 'terms of trade' which can be downloaded from the home page of nzinsulators.co.nz.

Copyright
