

MV NETWORK UPDATE NOVEMBER 2012

Positive news.

NZI has just released the most comprehensive menu of fuseholders on offer to NZ's MV Networks.

Genuine Red Spot, Camaster, NZI, Safeclip and Safeloc fuseholders – all through NZI.

The NZI 63A K07 fuseholder comes in nine different permutations. Listed in the NZI Brand section of NZI's website. Made in Temuka.

NZI K07

Red Spot, made in the UK – 63A, 100A, 200A, 400A. Ten different Red Spot options, including some offered in white. See the Bussmann section on nzinsulators.co.nz for the product schedule.

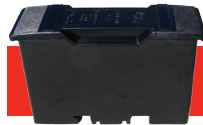

RED SPOT
RS100H

RED SPOT
RS63H

And in 32A we're offering Red Spot 'Safeclip' and Camaster 'Safeloc' fuseholders – five different configurations.

SAFECLIP
SC32H

SAFELOC
32NNF

Camaster – the Bussmann fuseholder with a cam action – 63A & 100A. Three different fuseholders in stock at NZI, plus a Back Stud upgrade kit. Premium product.

CAMASTER
CM63F

A 5-page fuseholder pdf brochure can now be downloaded off the home page of nzinsulators.co.nz

These fuseholders are also available direct to wholesalers, see our newly-released 2013 LV Pocket Book.
