## Unite against COVID-19

## Thank you for the continued support of New Zealand Insulators

Each time Covid-19 has reared its head be that as Covid-19, Delta or Omicron then the NZI team has risen to the challenge, swiftly adapting to make sure you receive the service you have come to expect.

We have overcome supply chain restrictions, and made changes to our own operations to keep delivering critical materials to our essential services customers.

We did this is in 2020, in 2021, and we're doing it again now in 2022.

Fortunately, our NZI team are veterans at thinking on their feet and pivoting quickly to minimise disruption, however, as the outbreak grows, carriers shipping lines and logistics in general are likely to come under further strain.

On our end, of course, we're always doing our very best to get your requirements either NZI locally manufactured or imported agency products to you, as soon as we possibly can.

**Thank you** to all NZI staff (and their families) for supporting us we couldn't do this without your 100% support.

**Thank you** to the NZI suppliers who are supporting our urgent requests and assist our business on a daily basis.

**Thank you** to our NZI Agency partners who stepped up to provide support even when they are facing similar concerns and issues.

Thank you to our NZI Customers, for helping us, help you.

The open collaboration and support provided to NZI is fantastic.

It's great that a NZ owned and operated manufacturing company has the support and ability to effectively manage and navigate our way through this crisis, it's been a long haul but every day we are better positioned to move forward in our new form of normality.

Well done - Team NZI

New Zealand Insulators proudly made in Temuka, South Canterbury, New Zealand.
